

INDEX

	PAGE
ACHESON, A. R., Discussion on Effects of Mechanical and Natural Ventilation on the Health of School Children.....	135
ADDAMS, HOMER, Discussion on Report of Committee on the Rating of Low Pressure Heating Boilers.....	54
ADLER, A. A., Discussion on Proposed Methods for Testing Radiators.....	92
Discussion on Standard Test Code for Heat Transmission through Walls....	266
Airation of Industrial Buildings, by W. C. RANDALL.....	159
Discussion on.....	178
Air Conditioning, Refrigeration as Applied to, by R. W. WATERFILL.....	503
Air Distribution, Methods of, by L. L. LEWIS.....	491
Air, Heating Industrial Buildings with Warm, by J. C. MILES.....	375
Air Leakage Studies on Metal Windows in a Modern Office Building, by F. C. HOUGHTEN AND M. E. O'CONNELL.....	321
Discussion on.....	335
Air Leakage through a Pivoted Metal Window, by F. C. HOUGHTEN AND M. E. O'CONNELL.....	519.
Discussion on.....	524
Air-Ships, Heating and Ventilating Problems of Gas Cell Manufacture for, by D. E. HUMPHREY.....	561
ALGREN, A. B., ROWLEY, F. B., AND MORRIS, F. M., Heat Transmission Research	439
ANDERSON, F. PAUL, Discussion on Effects of Mechanical and Natural Ventilation on the Health of School Children.....	142
Discussion on Proposed Methods for Testing Radiators.....	92
Discussion on Report of Committee on Heating and Ventilating Garages. .340, 341	
Discussion on Report of Committee on Rating of Low Pressure Heating Boilers.....	49, 50, 51, 52
Discussion on Standard Test Code for Heat Transmission through Walls. . .	264, 265, 266, 267, 268
Discussion on Testing of Low Pressure Steam Heating Boilers.....	224
ANGUS, H. H., Discussion on Utility Demands of a Modern Hospital.....	320
ANGUS, R. W., Discussion on Standard Test Code for Heat Transmission through Walls.....	258, 263, 265
Annual Meeting, 1928, The Thirty-Fourth.....	1
Application of Unit Ventilation Systems for Schools, by W. R. MCCORNACK.....	143
Discussion on.....	156

Applied to Air Conditioning, Refrigeration as, by R. W. WATERFILL.....	503
ARMSPACH, O. W., Discussion on Refrigeration as Applied to Air Conditioning...	516
ASHENHURST, H. S., Discussion on Heat Transmission Research.....	472
BEAL, JOHN, AND ROWLEY, F. B., A Study of Dust Determinators.....	475
BINDER, C. G., Discussion on Method of Calculating Cost of Gas Heating.....	371
BLOMFELDT, A. A., Discussion on Development of Gas Heating for Homes.....	358
Discussion on Method of Calculating Cost of Gas Heating.....	372
Boilers, Relation between Output and Operating Characteristics of Low-Pressure Steam-Heating, by P. NICHOLLS.....	227
Boilers, Test Methods for Radiators and, by C. W. BRABBÉE.....	59
Boilers, The Testing of Low Pressure Steam Heating, by L. S. O'BANNON.....	209
BOLSINGER, R. C., Discussion on Proposed Methods for Testing Radiators.....	91
Discussion on Test Methods for Radiators and Boilers.....	68
BOYD, D. K., Discussion on Standard Test Code for Heat Transmission through Walls.....	267, 268
BRAATZ, C., AND RICHTMANN, W. M., Effect of Frame Calking and Storm Windows on Infiltration around and through Windows.....	547
BRABBÉE, C. W., Test Methods for Radiators and Boilers.....	59
Discussion on.....	72
Discussion on Proposed Methods for Testing Radiators.....	90, 91, 94
BRACKEN, J. H., Discussion on Standard Test Code for Heat Transmission through Walls.....	265, 267
BRONSON, C. E., Discussion on Testing of Low Pressure Steam Heating Boilers...	225
Building, Air Leakage Studies on Metal Windows in a Modern Office, by F. C. HOUGHTEN AND M. E. O'CONNELL.....	321
Building Insulation, The Economic Thickness of, by M. S. WUNDERLICH.....	281
Building Insulation to Reduce Heat Losses, Value of, by E. N. SANBERN.....	269
Buildings, Airation of Industrial, by W. C. RANDALL.....	159
Buildings with Warm Air, Heating Industrial, by J. C. MILES.....	375
BURKE, F. H., Discussion on the Weathertightness of Rolled Section Steel Windows	543
Calculating Cost of Gas Heating, Method of, by A. E. STACEY AND W. B. THORNTON.....	363
Calking and Storm Windows on Infiltration around and through Windows, Effect of Frame, by W. M. RICHTMANN AND C. BRAATZ.....	547
CAMPBELL, E. K., Discussion on Effect of Frame Calking and Storm Windows on Infiltration around and through Windows.....	558
Discussion on Heating Industrial Buildings with Warm Air.....	381
Discussion on Relative Consumption of Various Solid Fuels in Residence Heating.....	392
Discussion on Report of Committee on Heating and Ventilating Garages.....	341, 342
CARRIER, W. H., Discussion on a Study of Dust Determinators.....	486
Discussion on Heat Transmission Research.....	470
Discussion on Method of Calculating Cost of Gas Heating.....	369
Discussion on Refrigeration as Applied to Air Conditioning.....	516
Discussion on Standard Test Code for Heat Transmission through Walls.....	262, 263, 264, 267, 268
Discussion on Test Methods for Radiators and Boilers.....	68

Change in By-Laws.....	44
Characteristics of Low-Pressure Steam-Heating Boilers, Relation between Output and Operating, by P. NICHOLLS.....	227
CHESTER, THOMAS, Joint Discussion of Papers on Heat Transfer.....	434
Children, Effects of Mechanical and Natural Ventilation on the Health of School, by THOMAS J. DUFFIELD.....	109
Code for Heat Transmission through Walls, Standard Test.....	253
Coefficients of Heat Transfer as Measured under Natural Weather Conditions, by F. C. HOUGHTEN AND C. G. F. ZOBEL.....	397
Joint Discussion.....	434
Conditioning, Refrigeration as Applied to Air, by R. W. WATERFILL.....	503
Conditions, Coefficients of Heat Transfer as Measured under Natural Weather, by F. C. HOUGHTEN AND C. G. F. ZOBEL.....	397
Conditions, Heat Transfer through Roofs under Summer, by F. C. HOUGHTEN AND C. G. F. ZOBEL.....	415
Consumption of Various Solid Fuels in Residence Heating, Relative, by V. S. DAY.....	385
Corrosion in Steam Heating Systems, by F. N. SPELLER.....	195
Discussion on.....	206
Cost of Gas Heating, Method of Calculating, by A. E. STACEY AND W. B. THORNTON.....	363
CRAWFORD, W. B., Discussion on Method of Calculating Cost of Gas Heating.....	371, 373
Dairy Stable Ventilation, by F. L. FAIRBANKS.....	181
Discussion on.....	193
DAY, V. S., Relative Consumption of Various Solid Fuels in Residence Heating..	385
Discussion on.....	395
Demands of a Modern Hospital, Utility, by G. L. LARSON, D. W. NELSON AND R. A. ROSE.....	293
Determinators, a Study of Dust, by F. B. ROWLEY AND JOHN BEAL.....	475
Development of Gas Heating for Homes, by W. E. STARK.....	347
Discussion on.....	356
Discussion on	
Airation of Industrial Buildings.....	178
Air Leakage Studies on Metal Windows in a Modern Office Building.....	335
Air Leakage through a Pivoted Metal Window.....	524
Application of Unit Ventilation Systems for Schools.....	156
Corrosion in Steam Heating Systems.....	206
Dairy Stable Ventilation.....	193
Development of Gas Heating for Homes.....	356
Economic Thickness of Building Insulation, The.....	289
Effect of Frame Calking and Storm Windows on Infiltration around and through Windows.....	557
Effects of Mechanical and Natural Ventilation on the Health of School Children.....	131
Heat Transmission Research.....	464
Heating and Ventilating Problems of Gas Cell Manufacture for Air-Ships...	566
Heating Industrial Buildings with Warm Air.....	381

Joint Discussion of Papers on Heat Transfer.....	434
Method of Calculating Cost of Gas Heating.....	369
Methods of Air Distribution.....	491
Practical Ventilation for Schoolrooms.....	106
Proposed Methods for Testing Radiators.....	84
Refrigeration as Applied to Air Conditioning.....	515
Relation between Output and Operating Characteristics of Low-Pressure Steam-Heating Boilers.....	241
Relative Consumption of Various Solid Fuels in Residence Heating.....	389
Report of Committee on Heating and Ventilating Garages.....	340
Report of Committee on Rating of Low Pressure Heating Boilers.....	49
Standard Test Code for Heat Transmission through Walls.....	256
Study of Dust Determinators, A.....	484
Test Methods for Radiators and Boilers.....	66
Testing of Low Pressure Steam Heating Boilers, The.....	222
Utility Demands of a Modern Hospital.....	320
Value of Building Insulation to Reduce Heat Losses.....	280
Weathertightness of Rolled Section Steel Windows, The.....	543
Distribution, Methods of Air, by L. L. LEWIS.....	491
DOUGHTY, C. J., Discussion on Effects of Mechanical and Natural Ventilation on the Health of School Children.....	139
DUFFIELD, THOMAS J., Effects of Mechanical and Natural Ventilation on the Health of School Children.....	109
Discussion on.....	139
Dust Determinators, A Study of, by F. B. ROWLEY AND JOHN BEAL.....	475
Economic Thickness of Building Insulation, The, by M. S. WUNDERLICH.....	281
Discussion on.....	289
Effect of Frame Calking and Storm Windows on Infiltration around and through Windows, by W. M. RICHTMANN AND C. BRAATZ.....	547
Discussion on.....	557
Effects of Mechanical and Natural Ventilation on the Health of School Children, by THOMAS J. DUFFIELD.....	109
Discussion on.....	131
EHRlich, M. W., Discussion on Proposed Methods for Testing Radiators.....	93
EMSWILER, J. E., Discussion on Airation of Industrial Buildings.....	180
Discussion on Air Leakage through a Pivoted Metal Window.....	524
Discussion on the Weathertightness of Rolled Section Steel Windows.....	545
EMSWILER, J. E. AND RANDALL, W. C., The Weathertightness of Rolled Section Steel Windows.....	527
EVANS, E. C., Discussion on Air Leakage through a Pivoted Metal Window....	524
Discussion on Effect of Frame Calking and Storm Windows on Infiltration around and through Windows.....	558
Discussion on Heat Transmission Research.....	470
Extended Heating Surfaces, The Value of, by C. S. SAGE.....	243
FAIRBANKS, F. L., Dairy Stable Ventilation.....	181
Discussion on Practical Ventilation for Schoolrooms.....	106

FANSLER, P. E., Discussion on Method of Calculating Cost of Gas Heating.....	312
Discussion on Report of Committee on Heating and Ventilating Garages....	341
FLEISHER, W. L., Discussion on Proposed Methods for Testing Radiators.....	93
Frame Calking and Storm Windows on Infiltration around and through Windows, Effect of, by W. M. RICHTMANN AND C. BRAATZ.....	547
FROST, R. V., Discussion on Development of Gas Heating for Homes.....	358
Discussion on Proposed Methods for Testing Radiators.....	90, 91, 93
Discussion on Report of Committee on the Rating of Low Pressure Heating Boilers.....	51, 52
Discussion on Testing of Low Pressure Steam Heating Boilers.....	223
Fuels in Residence Heating, Relative Consumption of Various Solid, by V. S. DAY	385
GANT, H. P., Discussion on Dairy Stable Ventilation.....	194
Gas Cell Manufacture for Air-Ships, Heating and Ventilating Problems of, by D. E. HUMPHREY.....	561
Gas Heating for Homes, Development of, by W. E. STARK.....	347
Gas Heating, Method of Calculating Cost of, by A. E. STACEY AND W. B. THORN- TON.....	363
GASS, JOHN R., Discussion on Heating Industrial Buildings with Warm Air.....	382
GOMBERS, H. B., Discussion on Development of Gas Heating for Homes.....	358, 360
HALLETT, E. S., Discussion on Relative Consumption of Various Solid Fuels in Residence Heating.....	393
Discussion on Report of Committee on Heating and Ventilating Garages....	340
Discussion on the Weathertightness of Rolled Section Steel Windows.....	544
HARDING, L. A., Discussion on Airation of Industrial Buildings.....	178
Discussion on Methods of Air Distribution.....	500

Discussion on Method of Calculating Cost of Gas Heating	370
Steam-Heating Boilers, Relation between Output and Operating Characteristics of Low-Pressure, by P. NICHOLLS	227

Steam Heating Boilers, The Testing of Low Pressure, by L. S. O'BANNON.....	209
Steam Heating Systems, Corrosion in, by F. N. SPELLER.....	195
Steel Windows, The Weathertightness of Rolled Section, by J. E. EMSWILER AND W. C. RANDALL.....	527
Storm Windows on Infiltration around and through Windows, Effect of Frame Calking and, by W. M. RICHTMANN AND C. BRAATZ.....	547
Studies on Metal Windows in a Modern Office Building, Air Leakage, by F. C. HOUGHTEN AND M. E. O'CONNELL.....	321
Study of Dust Determinators, A, by F. B. ROWLEY AND JOHN BEAL.....	475
Discussion on.....	484
Surfaces, The Value of Extended Heating, by C. S. SAGE.....	243
Systems, Corrosion in Steam Heating, by F. N. SPELLER.....	195
Summer Conditions, Heat Transfer through Roofs under, by F. C. HOUGHTEN AND C. G. F. ZOBEL.....	415
SWIFT, C. K., Discussion on Heat Transmission Research.....	469
SYLVAN, S., Discussion on A Study of Dust Determinators.....	484
Systems for Schools, Application of Unit Ventilation, by W. R. McCORNACK....	143
TAYLOR, T. S., Discussion on the Economic Thickness of Building Insulation....	291
Test Code for Heat Transmission through Walls, Standard.....	253
Test Methods for Radiators and Boilers, by C. W. BRABBÉE.....	59
Discussion on.....	66
Testing of Low Pressure Steam Heating Boilers, The, by L. S. O'BANNON.....	209
Discussion on.....	222
Testing Radiators, Proposed Methods for, by F. C. HOUGHTEN AND S. R. LEWIS..	75
Thickness of Building Insulation, The Economic, by M. S. WUNDERLICH.....	281
THOMPSON, R. C., Discussion on A Study of Dust Determinators.....	488
THORNTON, W. B., AND STACEY, A. E., Method of Calculating Cost of Gas Heating	363
TIMMIS, W. S., Discussion on Standard Test Code for Heat Transmission through Walls.....	263
TOMLINSON, M. C. W., Discussion on Test Methods for Radiators and Boilers....	72
TRACEY, JOHN, Discussion on Effects of Mechanical and Natural Ventilation on the Health of School Children.....	142
Transfer as Measured under Natural Weather Conditions, Coefficients of Heat, by F. C. HOUGHTEN AND C. G. F. ZOBEL.....	397
Transfer through Roofs under Summer Conditions, Heat, by F. C. HOUGHTEN AND C. G. F. ZOBEL.....	415
Transmission Research, Heat, by F. B. ROWLEY, F. M. MORRIS AND A. B. ALGREN	439
Transmission through Walls, Standard Test Code for Heat.....	253
Unit Ventilation Systems for Schools, Application of, by W. R. McCORNACK....	143
Utility Demands of a Modern Hospital, by G. L. LARSON, D. W. NELSON AND R. A. ROSE.....	293
Discussion on.....	320
Value of Building Insulation to Reduce Heat Losses, by E. N. SANBORN.....	269
Discussion on.....	280
Value of Extended Heating Surfaces, The, by C. S. SAGE.....	243

VAN DUSEN, M. S., Discussion on Heat Transmission Research	466
Discussion on Standard Test Code for Heat Transmission through Walls.	256
Ventilating Problems of Gas Cell Manufacture for Air-Ships, Heating and, by D. E. HUMPHREY.....	561
Ventilation, Dairy Stable, by F. L. FAIRBANKS.....	181
Ventilation for Schoolrooms, Practical, by S. R. LEWIS.....	95
Ventilation on the Health of School Children, Effects of Mechanical and Natural, by THOMAS J. DUFFIELD.....	109
Ventilation Systems for Schools, Application of Unit, by W. R. MCCORNACK.....	143
VOGEL, ANDREW, Discussion on Airation of Industrial Buildings.....	179
Discussion on Testing of Low Pressure Steam Heating Boilers.....	224
WALKER, J. H., Discussion on Corrosion in Steam Heating Systems.....	206
Walls, Standard Test Code for Heat Transmission through.....	253
Warm Air, Heating Industrial Buildings with, by J. C. MILES.....	375
WATERFILL, R. W., Refrigeration as Applied to Air Conditioning.....	503
Discussion on.....	517
Weather Conditions, Coefficients of Heat Transfer as Measured under Natural, by F. C. HOUGHTEN AND C. G. F. ZOBEL.....	397
Weathertightness of Rolled Section Steel Windows, The, by J. E. EMSWILER AND W. C. RANDALL.....	527
Discussion on.....	543
WEST, PERRY, Discussion on Development of Gas Heating for Homes.....	357
Discussion on Effects of Mechanical and Natural Ventilation on the Health of School Children.....	131
WESTOVER, H. C., Discussion on Effects of Mechanical and Natural Ventilation on the Health of School Children.....	142
WILLARD, A. C., Discussion on Dairy Stable Ventilation.....	193, 194
Window, Air Leakage through a Pivoted Metal, by F. C. HOUGHTEN AND M. E. O'CONNELL.....	519
Windows, Effect of Frame Calking and Storm Windows on Infiltration around and through, by W. M. RICHTMANN AND C. BRAATZ.....	547
Windows in a Modern Office Building, Air Leakage Studies on Metal, by F. C. HOUGHTEN AND M. E. O'CONNELL.....	321
Windows on Infiltration around and through Windows, Effect of Frame Calking and Storm, by W. M. RICHTMANN AND C. BRAATZ.....	547
Windows, The Weathertightness of Rolled Section Steel, by J. E. EMSWILER AND W. C. RANDALL.....	527
ZOBEL, C. G. F., AND HOUGHTEN, F. C., Coefficients of Heat Transfer as Measured under Natural Weather Conditions.....	397
Heat Transfer through Roofs under Summer Conditions.....	415
